

About Us

NEWSLETTER – ORGANIC FARMING

2017

- BSA formed from the project spin off
- Today, we are a family of 30 farmers cultivating an area of 1532 Ha organically

2014

- PPP project named WTBT1 was initiated
- Collaborated by Hofer KG, ADA and SHORE1

We Love & Care For Mangroves!

Never has a mangrove been destroyed by BSA for its business.

Integrated Mangrove Aquaculture (IMA)

Despite economic benefits, globally shrimp farming has been under intense criticism because of its environmental and social impacts. Unplanned and unregulated coastal aquaculture including shrimp farming has been the key driver for rapid loss of mangroves across the world.

Increase shrimp productivity through mangrove-based nutrient recycling

Reduction of blue carbon emissions through mangrove integration and enrichment of biodiversity

Improvement of overall shrimp farming environment

To establish mangrove based organic shrimp farming system

Climate Strike

A novel initiative of BSA towards environmental responsibility

To support Greta Thunberg's call for a global climate strike and #Fridays for Future movement, we observed a special event on climate strike along with celebration of 150 years birth anniversary of 'Father of the Nation' Mahatma Gandhi in line with 'Swachh Bharat Abhiyan'.
